

Instructions for signs

This biosecurity binder describes which signs are available.

On Svenska Ägg's member pages you will find all signs, logbooks and policies available to download. Download them and print as many copies as you need.

It is recommended to laminate the signs before putting them up on the wall.

HOW DO I FIND THE SIGNS?

Log in to *Mina sidor* via www.svenskaagg.se and go to the tab *Smittskydd*. In addition to all signs, logbooks and policies, you will also find other biosecurity-related information on the page.

If you need help with the download or if you are missing login details, please contact the office.
